MOST PROUD OF

• Automating the daily work at the IT infrastructure of the Computer Science Dept. at my university by the development of my Final Degree Project, in which I got honors.

• Teaching a few generations of students about Linux administration and microservices development with python.

• Most of my achievements as a student representative, such the approval of new regulations and the integration of the DE into the university IT infrastructure.

• Helping to make T3chFest possible as a volunteer and co-organizer.

• Being able to do all of this while I was studying at full-time and getting good academic records.
